## Authors

Brene Brown – Especially Dare to Lead and Braving the Wilderness – her primary message in her writings is Vulnerability, which may be a very difficult but also very rewarding challenge for someone transitioning from a military workplace and lifestyle to consider

Dave Ulrich – Look up HR Competencies, HR From the Outside In, and HR the Value Proposition. He truly did write the book(s) on how to become accomplished in the field of Human Resources (and teaches a great program at University of Michigan's Ross School of Business)

Patrick Lencioni – I recommend The Ideal Team Player and The Five Dysfunctions of a Team. These may be more valuable resources as someone begins a new role or begins a managerial role, but job seekers may find his insights on how teams function in the civilian workplace very useful.
